Classification of Assets

Artis has recategorized the current portfolio into three asset types:
Core Artis Assets, Development Assets, and Non-Core Artis Assets

Core Artis Assets ~\$4.2 billion

- Invaluable assets located in target markets in which Artis anticipates maintaining a long-term presence
- Well located and well leased to quality tenants
- In markets that historically have healthy occupancy rates and same property NOI growth

Development Assets ~\$200 million

- Existing assets with growth potential to be realized from redevelopment and repositioning, as well as new development projects
- Primarily new generation industrial properties on existing land
- Target development yields anticipated to be 150-200 bps above acquisition cap rates

Non-Core Artis Assets to be sold \$800 million to \$1 billion

- Good quality assets that management believes are outliers in Artis' portfolio with respect to type or location
- Markets and/or asset classes that Artis does not have competitive advantages in and does not anticipate maintaining a long-term presence

Recent Initiatives: Improving Unitholder Value

 - Simplify the REIT and focus on core assets
 - Excellent progress - \$236 million sold and \$398 million held for sale at June 30, 2019 (~65% of the planned sales), expected to be sold on average at or above IFRS NAV of \$15.40/unit
