Management's Discussion and Analysis - Q3-22

(in thousands of Canadian dollars, unless otherwise noted)

The following management's discussion and analysis ("MD&A") of the financial condition and results of operations of Artis Real Estate Investment Trust should be read in conjunction with the REIT's unaudited interim condensed consolidated financial statements for the three and nine months ended September 30, 2022 and 2021, the audited annual consolidated financial statements for the years ended December 31, 2021 and 2020, and the notes thereto. Unless otherwise noted, all amounts in this MD&A are based on the consolidated financial statements prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB"). Additionally, "Artis", and the "REIT", refers to Artis Real Estate Investment Trust and its consolidated operations. This MD&A has been prepared taking into account material transactions and events up to and including November 3, 2022. Additional information, including the REIT's most recent Annual Information Form, has been filed with applicable Canadian securities regulatory authorities and is available at <u>www.sedar.com</u> or on Artis' website at <u>www.artisreit.com</u>.

FORWARD-LOOKING DISCLAIMER

This MD&A contains forward-looking statements within the meaning of applicable Canadian securities laws. For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words "outlook", "objective", "expects", "anticipates", "intends", "estimates", "projects", "believes", "plans", "seeks", and similar expressions or variations of such words and phrases suggesting future outcomes or events, or which state that certain actions, events or results "may", "would" "should" or "will" occur or be achieved are intended to identify forward-looking statements. Such forward-looking information reflects management's current beliefs and is based on information currently available to management.

Particularly, statements regarding the Business Transformation Plan, the steps required to implement the Business Transformation Plan, Artis' return of capital and value investing strategies, building Artis into a best-in-class asset management and investment platform focused on value investing in real estate, the REIT's ability to execute its strategy, the REIT's ability to maximize long-term value and anticipated returns, planned divestitures, expected distributions by the REIT, the use of proceeds from divestitures, prospective investments and investment strategy, Artis' plans to optimize the value and performance of its assets, Artis' goals to grow net asset value ("NAV") per unit and distributions, efficiencies and cost savings, the tax treatment of Artis, Artis' status(es) under the Tax Act, the tax treatment of divestitures, are forward-looking statements.

Forward-looking statements are based on a number of factors and assumptions, which are subject to numerous risks and uncertainties, which have been used to develop such statements, but which may prove to be incorrect. Although Artis believes that the expectations reflected in the forward-looking statements are reasonable, it cannot guarantee future results, levels of activity, performance or achievement since such expectations are inherently subject to significant business, economic, competitive, political and social uncertainties and contingencies. Assumptions have been made regarding, among other things: the general stability of the economic and political environment in which Artis operates, treatment under governmental regulatory regimes, securities laws and tax laws, the ability of Artis and its service providers to obtain and retain qualified staff, equipment and services in a timely and cost efficient manner, currency, exchange and interest rates, global economic, financial markets and economic conditions in Canada and the United States will not, in the long term, be adversely impacted by the COVID-19 pandemic, disruptions resulting from the temporary restrictions that governments imposed on businesses to address the COVID-19 pandemic will not be long term.

Artis is subject to significant risks and uncertainties which may cause the actual results, performance or achievements of the REIT to be materially different from any future results, performance or achievements expressed or implied in these forwardlooking statements. Such risk factors include, but are not limited to risk related to tax matters; and, credit, market, currency, operational, liquidity and funding risks generally and relating specifically to the Cominar Transaction; the COVID-19 pandemic, real property ownership, geographic concentration, current economic conditions, strategic initiatives, debt financing, interest rate fluctuations, foreign currency, tenants, SIFT rules, other tax-related factors, illiquidity, competition, reliance on key personnel, future property transactions, general uninsured losses, dependence on information technology, cyber security, environmental matters and climate change, land and air rights leases, public markets, market price of common units, changes in legislation and investment eligibility, availability of cash flow, fluctuations in cash distributions, nature of units, legal rights attaching to units, preferred units, debentures, dilution, unitholder liability, failure to obtain additional financing, potential conflicts of interest, developments and trustees. Further, the Business Transformation Plan has additional risk factors including, but not limited to: failure to execute the Business Transformation Plan in part or at all, the ability to achieve certain efficiencies to generate savings in general and administrative expenses, pace of completing investments and divestitures, the ability of Sandpiper Asset Management Inc. ("Sandpiper") to provide services to Artis, risk of not obtaining control or significant influence in portfolio companies, risks associated with minority investments, reliance on the performance of underlying assets, operating and financial risks of investments, ranking of Artis' investments and structural subordination, follow-on investments, investments in private issuers, valuation methodologies involve subjective judgments, risks associated with owning illiquid assets, competitive market for investment opportunities, risks upon disposition of investments, reputation of Artis and Sandpiper, unknown merits and risks of future investments, resources could be wasted in researching investment opportunities that are not ultimately completed, credit risk, tax risk, regulatory changes, foreign security risk, foreign exchange risk, potential conflicts of interest with Sandpiper and market discount.

For more information on the risks, uncertainties and assumptions that could cause the Artis' actual results to materially differ from current expectations, refer to the section entitled "Risk Factors" of Artis' Annual Information Form for the year ended December 31, 2021 as well as Artis' other public filings, available at www.sedar.com.

Artis cannot assure investors that actual results will be consistent with any forward-looking statements and Artis assumes no obligation to update or revise such forward-looking statements to reflect actual events or new circumstances other than as required by applicable securities laws. All forward-looking statements contained in this MD&A are qualified by this cautionary statement.

NOTICE WITH RESPECT TO NON-GAAP & SUPPLEMENTARY FINANCIAL MEASURES DISCLOSURE

In addition to reported IFRS measures, certain non-GAAP and supplementary financial measures are commonly used by Canadian real estate investment trusts as an indicator of financial performance. "GAAP" means the generally accepted accounting principles described by the CPA Canada Handbook - Accounting, which are applicable as at the date on which any calculation using GAAP is to be made. Artis applies IFRS, which is the section of GAAP applicable to publicly accountable enterprises.

Non-GAAP measures and ratios include Same Property Net Operating Income ("Same Property NOI"), Funds From Operations ("FFO"), Adjusted Funds from Operations ("AFFO"), FFO per Unit, AFFO per Unit, FFO Payout Ratio, AFFO Payout Ratio, Net Asset Value ("NAV"), NAV per Unit, Gross Book Value ("GBV"), Secured Mortgages and Loans to GBV, Total Debt to GBV, Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization ("Adjusted EBITDA"), Adjusted EBITDA Interest Coverage Ratio and Total Debt to Adjusted EBITDA.

Supplementary financial measures include unencumbered assets to unsecured debt, percentage of unhedged variable rate mortgage debt, excess of cash flow from operations over distributions declared and excess of net income over distributions declared.

Management believes that these measures are helpful to investors because they are widely recognized measures of Artis' performance and provide a relevant basis for comparison among real estate entities.

These non-GAAP and supplementary financial measures are not defined under IFRS and are not intended to represent financial performance, financial position or cash flows for the period, nor should any of these measures be viewed as an alternative to net income, cash flow from operations or other measures of financial performance calculated in accordance with IFRS.

A description of the composition and a reconciliation to each of these measures to the nearest IFRS measure can be found in the MD&A sections as outlined below:

| Non-GAAP / Supplementary Financial Measure | MD&A Section |
|---|-------------------------------|
| | |
| Same Property NOI | Same Property NOI Analysis |
| FFO, AFFO, FFO per Unit, AFFO per Unit, FFO Payout Ratio, AFFO Payout Ratio | FFO & AFFO |
| NAV Per Unit | Other Financial Measures |
| GBV, Secured Mortgages & Loans to GBV, Total Debt to GBV | Other Financial Measures |
| Adjusted EBITDA, Adjusted EBITDA Interest Coverage Ratio & Debt to Adjusted EBITDA | Other Financial Measures |
| Unencumbered assets to unsecured debt | Other Financial Measures |
| Percentage of unhedged variable rate mortgage debt | Liabilities |
| Excess of cash flow from operations over distributions declared, excess of net income over distributions declared | Liquidity & Capital Resources |

The above measures are not standardized financial measures under the financial reporting framework used to prepare the financial statements of Artis. Readers should be further cautioned that the above measures as calculated by Artis may not be comparable to similar measures presented by other issuers.

BUSINESS OVERVIEW

Artis is one of the largest diversified commercial real estate investment trusts in Canada and is an unincorporated closed-end real estate investment trust, created under, and governed by, the laws of the Province of Manitoba. The REIT was created pursuant to the Declaration of Trust dated November 8, 2004, as most recently amended and restated on December 19, 2021 (the "Declaration of Trust").

Certain of the REIT's securities are listed on the Toronto Stock Exchange ("TSX"). The REIT's common units trade under the symbol AX.UN and the REIT's preferred units trade under the symbols AX.PR.E and AX.PR.I. The REIT's common units also trade in the United States ("U.S.") on the OTCQX Best Market ("OTCQX"), under the symbol ARESF.

As at November 3, 2022, there were 115,787,822 common units, 8,531,950 preferred units, 453,444 restricted units and 197,722 deferred units of Artis outstanding (refer to the Outstanding Unit Data section of this MD&A for further details).

The Fourth Amended and Restated Unitholder Rights Plan Agreement dated September 24, 2020 between Artis and TSX Trust Company (formerly AST Trust Company) (the "Rights Plan") was terminated on June 15, 2022. The rescission of the Rights Plan pursuant to section 5.4(c) of the Rights Plan, as described in Artis' management information circular dated May 2, 2022, was approved by a majority of the Independent Unitholders (as defined in the Rights Plan) at the annual meeting of the holders of common units of Artis, held on June 9, 2022.

VISION

Artis' vision is to become a best-in-class real estate asset management and investment platform focused on growing NAV per unit and distributions for its investors through value investing.

BUSINESS TRANSFORMATION PLAN

In March 2021, Artis unveiled a detailed strategy (the "Business Transformation Plan") to achieve its vision and to create Canada's pre-eminent asset management and investment platform, focused on value investing in real estate.

The goal of the Business Transformation Plan is to generate meaningful long-term growth in NAV per unit and distributions by monetizing assets, strengthening the balance sheet and scaling-up through value investing. Artis will concentrate its ownership in the highest and best return opportunities in an effort to maximize long-term value for unitholders.

As part of the Business Transformation Plan, Artis will be agnostic as to how it owns real estate and will embrace opportunism and the inefficiencies that the public markets provide, leveraging and capitalizing on opportunities that exist today or will surface in the future.

The Business Transformation Plan includes several key elements, as outlined below.

Strengthening the Balance Sheet

The first element of the Business Transformation Plan is to strengthen the balance sheet through accretive dispositions, unit repurchases and debt reduction.

Since the announcement of the Business Transformation Plan, Artis has been unlocking value through the monetization of certain assets, including most of its industrial assets in the Greater Toronto Area, Ontario. In aggregate, since March 2021, Artis has sold 31 industrial properties, ten office properties, six retail properties and a portion of a retail property. These dispositions include the REIT's remaining office properties located in Calgary, Alberta. Over the short-to-medium term, the REIT will continue to evaluate the sale of a portion of its industrial, office and retail assets in an opportunistic and disciplined manner, with the goal of maximizing value on a tax-efficient basis.

The REIT's NCIB program has remained active since the announcement of the Business Transformation Plan. Under the NCIB that expired on December 16, 2021, Artis purchased 10,160,396 units at a weighted average price of \$11.26, representing the maximum number of common units allowed under the applicable term. Under the NCIB that was renewed on December 17, 2021, Artis purchased 8,778,176 common units at a weighted-average price of \$12.39, representing the maximum number of common units allowed under the applicable term. The units purchased under the NCIB in both 2021 and 2022 were purchased at a significant discount to NAV per unit of \$19.26 at September 30, 2022 and NAV per unit of \$17.37 at December 31, 2021.

During the third quarter of 2022, Artis completed the redemption of the outstanding Series A preferred units with a face value of \$81,208.

Proceeds from property dispositions in 2021 and 2022 were partially used to reduce outstanding debt. The REIT ended the third quarter of 2022 with total debt to GBV of 47.9%, reduced from 49.3% prior to the announcement of the Business Transformation Plan.

In addition, Artis is focused on maintaining low leverage and debt metrics within the investment grade credit rating parameters defined by DBRS Morningstar ("DBRS"). The REIT's senior unsecured debentures have a DBRS rating of BBB (low) and the REIT's preferred trust units have a DBRS rating at Pfd-3 (low), both with Stable trends.

Driving Organic Growth

The second element of the Business Transformation Plan is driving organic growth, which is done by creating value for Artis' unitholders through identifying operational efficiencies, increasing occupancy and in-place rents, and the completion of new development projects.

Artis has numerous development projects underway. The Park Lucero East development project, located in the Greater Phoenix Area, Arizona is well underway. Artis has a 10% ownership interest in the development as well as a development management contract. In 2021, Artis acquired two parcels of industrial development land in the Twin Cities Area, Minnesota. This project, Blaine 35, is expected to total 317,400 square feet upon completion. Construction of the first phase was complete during the second quarter of 2022 and construction of the second phase is currently underway. Approximately 73.4% of the gross leasable area for Blaine 35 I was leased upon completion of construction while 50.3% of the gross leasable area for Blaine 35 II is pre-leased. Leasing for the remainder of the buildings is in progress.

The REIT also has a commercial and residential development project under construction. 300 Main is a 580,000 square foot building located in Winnipeg, Manitoba. 300 Main is connected to 330 Main, a state-of-the-art multi-tenant retail property constructed in 2020. The sites are located above the Shops of Winnipeg Square retail concourse and Winnipeg Square Parkade, and adjacent to 360 Main, a 30-storey Class A office tower, all of which are owned by Artis. 300 Main will be a best-in-class amenity-rich apartment building with main floor commercial space. During the first quarter of 2022, Earls Kitchen & Bar, occupying approximately 7,400 square feet, moved into their space on the main floor of the building. Pre-leasing of the first 20 floors of the 40-storey residential apartments is currently underway.

During the first quarter of 2022, Artis completed construction of the fifth and final phase of Park 8Ninety, located in the Greater Houston Area, Texas. This final phase comprises approximately 675,000 square feet of additional industrial space to add to Artis' existing 1,120,414 square feet in the first four phases. Artis has a 95% ownership interest in Park 8Ninety V.

Focusing on Value Investing

The third element of the Business Transformation Plan is to focus on value investing. This involves redeploying capital into new investments including value-added assets, undervalued publicly traded real estate securities and any other real estate investment opportunities. In particular, Artis is focused on identifying investments that are undervalued with potential to produce above average risk-adjusted returns over the medium-to-long term.

Artis will seek to unlock value in its portfolio companies through active management, which may include pursuing board representation and engaging constructively with boards and management teams of its portfolio companies to effectuate long-term value creation. Artis may serve as a catalyst for privatizations, merger and acquisition opportunities, strategic transformations, and operational and governance improvements for its portfolio companies, with a focus on maximizing value for the owners of Artis.

The REIT's near-term focus continues to be on publicly listed Canadian real estate entities.

In 2021, compelling opportunities were identified in the public markets and during the first quarter of 2022, Artis participated in an investor group to acquire Cominar Real Estate Investment Trust ("Cominar"). The REIT's contribution to this transaction ("Cominar Transaction") was \$112,000 to acquire approximately 32.64% of Iris Acquisition II LP ("Iris"), an entity formed to acquire the outstanding units of Cominar, and \$100,000 of junior preferred units that carry a rate of return of 18.0% per annum.

At September 30, 2022, Artis invested in equity securities with an aggregate fair value of \$269,908. This includes equity securities of Dream Office Real Estate Investment Trust ("Dream Office") where, together with its joint-actors, Artis announced on June 22, 2022, that it had acquired a 14% ownership position.

The successful execution of the Business Transformation Plan requires suitable opportunities, careful timing and business judgment, as well as sufficient resources to make investments and restructure them, if required. There can be no assurance that the REIT will be able to execute the Business Transformation Plan or to identify suitable or sufficient opportunities to monetize or maximize the value of its existing portfolio of assets or to make investments that satisfy its investment criteria at attractive prices, in either case, in a timely manner, or at all.

BUSINESS ENVIRONMENT AND OUTLOOK

Leasing activity remained strong during the third quarter. There continues to be an increase in overall activity and in interest from new tenant prospects across the REIT's portfolio. Occupancy including commitments remained stable at 92.0% at September 30, 2022, consistent with occupancy reported at June 30, 2022. During the quarter, a notable 486,937 square feet of renewals commenced at a weighted-average increase in rental rate of 3.0%. This marks the seventh consecutive quarter of growth in weighted-average rental rate on renewals. Same Property occupancy at September 30 increased to 90.8% in 2022, from 89.6% in 2021 while year-over-year Same Property NOI growth for the three months ended September 30 was 4.3%. These are important indicators of the strength of the REIT's portfolio and are reflective of the leasing momentum that has been gaining over the last several months.

As part of Artis' strategy, the REIT continues to evaluate the sale of a portion of its industrial, office and retail portfolios in an opportunistic and disciplined manner, with the goal of maximizing value on a tax-efficient basis. During the third quarter of 2022, Artis sold one office property in the Twin Cities Area, Minnesota. In aggregate since the announcement of the REIT's Business Transformation Plan, Artis has sold 31 industrial properties, ten office properties, six retail properties and a portion of a retail property. During the remainder of 2022, Artis remains committed to executing its disposition plan, and continues to see stable performance and strong value in the industrial, office, and retail asset classes. With respect to the current economic environment, Artis is closely monitoring interest rate trends and forecasts and is in discussions with lenders and working diligently to manage its debt maturities schedule. While this rising interest rate environment has impacted the public markets and has led to inefficiencies in the public real estate sector, it has also presented compelling opportunities that are in line with the Artis' value investing strategy. Artis' Board of Trustees continues to diligently consider all available options and opportunities and, in doing so, is taking into consideration the current environment and how to ensure the best interests of unitholders is achieved.

Going forward, Artis will continue to focus on improving its balance sheet while deploying some of the proceeds from disposition activity into new real estate investments, including undervalued publicly traded real estate securities and value-add real estate acquisitions or developments. The REIT has made significant progress towards the implementation of the Business Transformation Plan, and the Board and management continue to have strong conviction in the REIT's vision and strategy.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE ("ESG") UPDATE

As part of Artis' vision, to build a best-in-class asset management and investment platform focused on growing net asset value per unit and distributions for investors through value investing in real estate, the REIT is committed to ensuring that excellence in ESG practices is an integral part of its business model and is a core component of its corporate culture.

Artis strives to be a sustainability leader, and to demonstrate a high standard of ESG consciousness and best practices through its commitment to ongoing review, transparency and performance. Since the announcement of the Business Transformation Plan and the REIT's commitment to ESG best practices in March 2021, Artis' ESG program has undergone a significant transformation. During this time, Artis has created an internal ESG Committee, added Yardi Pulse to complement its reporting tools and provide sustainability-focused, property-level reporting functionality, reviewed all Board mandates, charters, policies and position descriptions, adopted a comprehensive pay-for-performance structure related to short-term incentive compensation and long-term incentive compensation for the Chief Executive Officer, Chief Financial Officer and Chief Operating Officer, incorporated reporting principles of the Sustainability Accounting Standard, and submitted to GRESB for the first time since 2019. These are only a few examples of the immense work that has gone in to elevating our ESG program and fulfilling our commitment to unitholders.

At September 30, 2022, the REIT had 9 properties with a Leadership in Energy and Environmental Design ("LEED") certification, 5 properties with a Building Owners and Managers Association ("BOMA") Building Environmental Standards ("BEST") certification and 18 properties with an Energy Star certification.

Additional information about Artis' comprehensive corporate sustainability program, including a copy of Artis' 2021 ESG Report can be accessed on the REIT's website at the following link: www.artisreit.com.

Financial and Operational Results

Rental revenue from investment properties and net operating income decreased period-over-period primarily due to the impact of property dispositions throughout 2021 and 2022.

Artis reported portfolio occupancy of 92.0% (including commitments) at September 30, 2022, unchanged compared to June 30, 2022. During the third quarter, 439,335 square feet of new leases and 486,937 square feet of lease renewals commenced. The weighted-average increase in renewal rents compared to expiring rents on renewals that began during the third quarter was 3.0%.

Net (loss) income and total comprehensive income were impacted by the fair value change on investment properties (loss of \$74,072 in Q3-22, compared to loss of \$3,957 in Q3-21), net (loss) income from equity accounted investments (loss of \$44,739 in Q3-22, compared to income of \$7,310 in Q3-21), the fair value change on financial instruments (loss of \$15,544 in Q3-22, compared to a loss of \$3,222 in Q3-21) and interest expense (\$24,464 in Q3-22, compared to \$16,838 in Q3-21).

The above decreases were partially offset by an increase to interest and other income (\$5,261 in Q3-22 compared to \$549 in Q3-21), an increase in distribution income from equity securities (\$3,095 in Q3-22, compared to \$334 in Q3-21) and a decrease to corporate expenses (\$1,675 in Q3-22, compared to \$2,374 in Q3-21).

Foreign exchange had an impact on Artis' financial results, due to a higher US dollar to Canadian dollar average exchange rate of 1.3061 in Q3-22, compared to 1.2601 in Q3-21.

FFO per unit for Q3-22 was \$0.36, increased from \$0.33 for Q3-21, while AFFO per unit for Q3-22 was \$0.25, increased from \$0.23 for Q3-21. FFO and AFFO in Q3-22 were primarily impacted by an increase in interest and other income due to the preferred investment as part of the Cominar Transaction, an increase in income from equity accounted investments primarily due to the investment in common units as part of the Cominar Transaction, increased distribution income from equity securities and a realized gains on the sale of equity securities, partially offset by increased interest expense and decreased net operating income as a result of dispositions completed in 2021 and 2022. FFO and AFFO per unit results are also impacted by the decrease in the weighted-average number of units outstanding, primarily due to units repurchased under the normal course issuer bid ("NCIB"). The REIT reported conservative FFO and AFFO payout ratios of 41.7% and 60.0%, respectively, for the third quarter of 2022.

Balance Sheet and Liquidity

During Q3-22, Artis drew a net balance of \$132,965 on its revolving credit facilities, which were primarily used for purchases of equity securities and the redemption of the Series A preferred units. Also during Q3-22, the REIT repaid three maturing mortgages in the amount of \$44,117. Total debt to GBV was 47.9% at September 30, 2022, compared to 42.9% at December 31, 2021. Artis' Adjusted EBITDA interest coverage ratio was 2.83 for Q3-22, compared to 3.79 for Q3-21.

In Q3-22, Artis utilized the NCIB to purchase 2,700 Series A, 16,600 Series E and 28,600 Series I preferred units for an aggregate market price of \$1,160. The REIT has purchased the maximum number of common units permitted under its NCIB that was renewed on December 17, 2021.

At September 30, 2022, NAV per unit was \$19.26, increased from \$17.37 at December 31, 2021. The increase is primarily due to net operating income, income from equity accounted investments, the impact of foreign exchange and the impact of units purchased under the NCIB, partially offset by distributions to unitholders, the fair value loss on financial instruments and the fair value loss on investment properties during the period.

Distributions

In Q3-22, Artis declared distributions of \$21,611 (YTD - \$65,800) to unitholders, which included distributions to preferred unitholders in the amount of \$4,243 (YTD - \$12,779).

New Developments in Process

At September 30, 2022, Artis had two development projects in process, 300 Main and Blaine 35 II.

300 Main is a 580,000 square foot commercial and residential/multi-family development project in Winnipeg, Manitoba. 300 Main is connected to 330 Main, a state-of-the-art multi-tenant retail property constructed in 2020. The properties are located at the iconic intersection of Portage and Main in downtown Winnipeg, Manitoba, and will span nearly one city block when complete. The sites are located above the Shops of Winnipeg Square retail concourse and Winnipeg Square Parkade, and adjacent to 360 Main, a 30-storey Class A office tower, all of which are owned by Artis. 300 Main will be a best-in-class amenity-rich apartment building with main floor commercial space. During Q1-22, Earls Kitchen & Bar, occupying approximately 7,400 square feet, moved into their space on the main floor of the building. Pre-leasing of the first 20 floors of the 40-storey residential apartments is currently underway.

Blaine 35 is a two-phase industrial development project located in the Twin Cities Area, Minnesota, with prominent interstate frontage at the intersection of I-35W and 85th Ave N. During Q2-22, construction of the first phase of the project, Blaine 35 I, comprising 118,500 square feet of leasable area was complete. Approximately 73.4% of the building was leased upon completion of construction while leasing for the remainder of the building is in progress. Construction of the second phase, Blaine 35 II is currently underway and will comprise two buildings expected to total approximately 198,900 square feet of leasable area upon completion. Pre-leasing is in progress and Artis has negotiated a lease for approximately 50.3% of the gross leasable area of Blaine 35 II.

Refer to the Risks and Uncertainties section of this MD&A for discussion of the risks related to Artis' ongoing development projects.

Additional information about these developments will be released as progress is made and key milestones are achieved.

Rezoning and Densification Initiatives

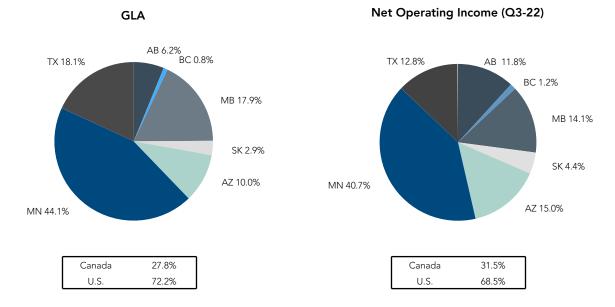

Artis is exploring an opportunity for a densification project at Poco Place in Port Coquitlam, British Columbia. The site provides access to major transportation routes and frontage on four streets, including Lougheed Highway, an east-west arterial corridor. Preliminary plans to build 600 to 900 apartment units are underway. This project will be planned for sale once rezoning and densification entitlement is achieved. Additional information about this project will be released as progress is made.

(1) Based on owned share of GLA of properties and excludes properties under development and properties held in equity accounted investments.

In Q3-22, 486,937 square feet were renewed at an increase in the weighted-average rental rate of 3.0%, compared to 329,468 square feet renewed at an increase in the weighted-average rental rate of 2.0% in Q3-21.

The percentage change on renewal activity is calculated by comparing the rental rate in place at the end of the expiring term to the rental rate in place at the commencement of the new term. In many cases, leases are negotiated or renewed such that there are contractual rent escalations over the course of the new lease term. In these cases, the average rent over the new term will be higher than the rate at commencement, which is not reflected in the above table results.

Lease Maturities and Rental Rates

In-place rental rates reflect the weighted-average net annual rental rate per square foot as at September 30, 2022, for the leasable area expiring in the year indicated. In-place rents do not reflect either the average rate over the term of the lease or the rate in place in the year of expiry.

Market rents are estimates and are shown as a net annual rate per square foot. Artis reviews market rents across the portfolio on an on-going basis. These estimates are based on management's best estimate for each leasable space and may take into consideration the property manager's revenue budget, recent leasing activity, current prospects, future commitments or publicly available market information. Rates applied in future expiry years do not allow for the impact of inflation, nor do they attempt to factor in anticipated higher (or lower) than normal periods of demand or market rent inflation due to specific market conditions. Refer to the Risks and Uncertainties section of this MD&A for further information. Market rents at September 30, 2022, were estimated to be 1.1% above in-place rents across the portfolio, compared to 1.5% above in-place rents at June 30, 2022. Today's market rents for the 2022 and 2023 lease expiries are estimated to be 6.1% and 3.4% above in-place rents, respectively.

The following tables contain information on lease maturities and rental rates and are based on owned share of GLA of properties included in the Portfolio by Asset Class table in the Property Portfolio section of this MD&A. Monthly tenants includes holdovers and renewals where term has not been negotiated.

(1) In 2021, the REIT completed the conversion of an industrial property to commercial condominium units and all units were sold during the year.

Rental income is revenue earned from tenants primarily related to lease agreements.

Tenant inducement costs are amortized over the term of the tenant's lease.

Rent steps and lease termination income (if it is likely the tenant will exercise the lease termination option) are accounted for by straight-lining the incremental increases and lease termination payments over the entire non-cancelable lease term, including the tenant fixturing period.

Lease termination income relates to payments received from tenants where the REIT and the tenant agreed to terminate a lease prior to the contractual expiry date. Lease termination income is common in the real estate industry, however, it is unpredictable and period-over-period changes are not indicative of trends.

Property operating expenses include costs related to interior and exterior maintenance, insurance, utilities and property management expenses. Also included in property operating expenses is bad debt expense of \$293 (YTD - \$628) in Q3-22 compared to \$160 (YTD - \$386) in Q3-21.

In Q3-22, the Canadian industrial, office and retail segments were primarily impacted by dispositions in each segment in 2021 and by dispositions in the industrial and office segments in 2022. The U.S. office segment increased due to lease termination income and increased occupancy in certain properties partially offset by a disposition in 2022.

The U.S. portfolio was also impacted by the effect of foreign exchange.

Same Property NOI Analysis

Same Property NOI is a non-GAAP measure. Refer to the Notice with Respect to Non-GAAP & Supplementary Measures Disclosure section of this MD&A.

Artis calculates Same Property NOI by including net operating income for investment properties that were owned for a full quarterly reporting period in both the current and comparative year, and excludes properties held for (re)development and properties that are unconditionally sold. Same Property NOI includes Artis' portfolio of investment properties and investment properties held in equity accounted investments. Adjustments are made to this measure to exclude certain non-cash revenue items and other non-recurring revenue amounts. Lease termination income related to significant tenants has been excluded, other than the portion that covers lost revenue due to vacancy.

Management considers Same Property NOI to be a valuable measure for evaluating the operating performance of the REIT's properties due to changes in occupancy, rental rates and the recovery of property operating expenses and realty taxes.

(1) Amounts shown are in Canadian and US dollars.

During Q3-22, interest expense on mortgages and other loans was impacted by the repayment of mortgages upon disposition of investment properties and the repayment of maturing mortgages, partially offset by increased interest expense on mortgages at variable rates. Interest expense on senior unsecured debentures increased primarily due to the issuance of the Series E senior unsecured debentures in April 2022. Interest expense on credit facilities increased primarily due to higher balances drawn on the revolving credit facilities during the quarter and fluctuations to variable interest rates.

Financing costs on mortgages and other loans, senior unsecured debentures and the credit facilities are netted against the related debt and amortized on an effective interest basis over the expected term of the debt.

At September 30, 2022, the weighted-average effective interest rate on mortgages and other loans secured by properties, was 4.28%, compared to 3.31% at December 31, 2021. The weighted-average nominal interest rate on mortgages and other loans secured by properties at September 30, 2022, was 3.99%, compared to 3.04% at December 31, 2021.

INTEREST AND OTHER INCOME

Interest and other income was \$5,261 (YTD - \$13,355) in Q3-22, compared to \$549 (YTD - \$1,258) in Q3-21. The change is primarily due to distribution income from preferred investments in the amount of \$4,740 in Q3-22. Refer to the Preferred Investments section of this MD&A for further details.

DISTRIBUTION INCOME FROM EQUITY SECURITIES

Distribution income from equity securities was \$3,095 (YTD - \$6,270) in Q3-22, compared to \$334 (YTD - \$346) in Q3-21. Refer to Equity Securities section of this MD&A for further details.

FAIR VALUE (LOSS) GAIN ON INVESTMENT PROPERTIES

The changes in fair value on investment properties, period-over-period, are recognized as fair value gains and losses in the consolidated statement of operations. Fair values of the investment properties are determined through either the discounted cash flow method or the overall capitalization method. External valuations are performed for a selection of properties representing various geographical regions and asset classes across the REIT's portfolio. Fair value changes in individual properties result from changes in the projected income and cash flow projections of those properties, as well as from changes in capitalization rates and discount rates applied. In Q3-22, the fair value loss on investment properties was \$74,072 (YTD - loss of \$21,898, compared to a loss of \$3,957 (YTD - gain of \$188,264) in Q3-21. The fair value loss in Q3-22 was primarily due to an increase in capitalization rates in certain industrial and office markets across both Canada and the U.S.

FOREIGN CURRENCY TRANSLATION (LOSS) GAIN

Artis held certain US dollar denominated monetary assets and liabilities, including cash, deposits and a portion of its revolving term credit facilities. The foreign currency translation (loss) gain is primarily due to remeasurement of these assets and liabilities into Canadian dollars at the exchange rate in effect at the balance sheet date. The REIT recorded a foreign currency translation loss of \$6,956 (YTD - loss of \$8,266) in Q3-22, compared to a gain of \$2,054 (YTD - loss of \$3,717) in Q3-21.

FAIR VALUE (LOSS) GAIN ON FINANCIAL INSTRUMENTS

Artis has entered into a number of interest rate swap contracts to effectively lock the interest rate on a portion of variable rate debt. The REIT recorded an unrealized gain on the fair value adjustment of the interest rate swaps outstanding of \$4,209 (YTD - gain of \$19,242) in Q3-22, compared to an unrealized gain of \$2,622 (YTD - gain of \$10,258) in Q3-21. The REIT anticipates holding the mortgages and related interest rate swap contracts until maturity.

In conjunction with the Business Transformation Plan, the REIT commenced purchasing equity securities during 2021. The REIT recorded a fair value loss on equity securities of \$20,019 (YTD - loss of \$59,088) in Q3-22, compared to a loss of \$598 (YTD - loss of \$544) in Q3-21.

INCOME TAX

The REIT currently qualifies as a mutual fund trust and a real estate investment trust for Canadian income tax purposes. Under current tax legislation, income distributed annually by the REIT to unitholders is a deduction in the calculation of its taxable income. As the REIT intends to distribute all of its taxable income to its unitholders, the REIT does not record a provision for current Canadian income taxes to the Canadian investment properties. The REIT's investment in Iris Acquisition II LP as part of the Cominar Transaction is through a taxable subsidiary subject to current and deferred taxes. During the nine months ended September 30, 2022, the REIT recorded a deferred tax liability of \$15,842 primarily due to the bargain purchase gain related to the acquisition of Cominar by Iris and the subsequent fair value adjustments to investment properties by Cominar. The deferred taxes are recorded at the undistributed rate of tax. Actual taxes payable are expected to be reduced due to the benefit of dividend refunds.

The REIT's U.S. properties are owned by subsidiaries that are REITs for U.S. income tax purposes. These subsidiaries intend to distribute all of their U.S. taxable income to Canada and are entitled to deduct such distributions for U.S. income tax purposes. As a result, the REIT does not record a provision for current federal U.S. income taxes on the taxable income earned by these subsidiaries. These U.S. subsidiaries are subject to certain state taxes and a 21% to 30% withholding tax on distributions to Canada. Any withholding taxes paid are recorded with the related distributions.

The REIT is subject to federal and state taxation in the U.S. on the taxable income earned by its U.S. management subsidiary.

OTHER COMPREHENSIVE INCOME

Other comprehensive income includes unrealized foreign currency translation gains of \$103,317 (YTD - gains of \$130,189) in Q3-22, compared to gains of \$41,490 (YTD - gains of \$5,996) in Q3-21. Foreign currency translation gains and losses relate to the REIT's net investments in its U.S. subsidiaries.

FUNDS FROM OPERATIONS ("FFO") AND ADJUSTED FUNDS FROM OPERATIONS ("AFFO")

FFO and AFFO are non-GAAP measures. Management considers FFO and AFFO to be a valuable recurring earnings measures for evaluating the REIT's operating performance. Refer to the Notice with Respect to Non-GAAP & Supplementary Measures Disclosure section of this MD&A.

Artis calculates FFO and AFFO substantially in accordance with the guidelines set out by the Real Property Association of Canada ("REALpac"), as issued in January 2022. FFO adjusts net income for items that are non-cash or not recurring in nature such as fair value gains or losses on investment properties and financial instruments, foreign currency translation gains and losses, tenant inducements amortized to revenue, transaction costs on acquisitions, deferred income taxes, distributions on preferred shares treated as interest expense, remeasurement component of unit-based compensation, incremental leasing costs, and preferred unit distributions. AFFO adjusts FFO by excluding straight-line rent adjustments, as well as costs incurred relating to leasing activities and property capital expenditures. AFFO includes adjustments related to the REIT's equity accounted investments.

In addition, the REIT includes the realized gains and losses on the disposition of equity securities (and excludes the unrealized gains or losses of equity securities) in its calculation of FFO and AFFO. The REIT also adjusted FFO and AFFO for strategic initiative expenses for a total of \$18 for the nine months ended September 30, 2021. Although these adjustments to arrive at FFO and AFFO are not in accordance with the guidelines set out by REALpac as issued in January 2022, management believes the resulting FFO and AFFO provide a better representation of recurring operating performance.

FFO and AFFO in Q3-22 were primarily impacted by an increase in interest and other income due to the preferred investment as part of the Cominar Transaction, an increase in income from equity accounted investments primarily due to the investment in common units as part of the Cominar Transaction, increased distribution income from equity securities and realized gains on the sale of equity securities, partially offset by increased interest expense and a decrease in net operating income as a result of dispositions completed in 2021 and 2022.

Actual capital expenditures are by nature variable and unpredictable. Recoverable capital expenditures are building improvement or property maintenance expenditures recovered from tenants over time. Management has deducted from AFFO the actual amortization of recoverable capital expenditures included in property operating expenses charged to tenants for the period, including joint venture arrangements. Approximately 74.5% (YTD - 74.1%) is recoverable from tenants in Q3-22, compared to 76.2% (YTD - 77.4%) in Q3-21. The non-recoverable property maintenance reserve reflects management's estimate of a normalized expenditure using the 2018, 2019, 2020, and 2021 actual expenditures and the 2022 annual budgeted expenditures. Refer to the capital expenditures disclosure under the Assets section of this MD&A for further discussion of actual expenditures for the period.

Actual leasing costs include tenant improvements that are not capital in nature, tenant allowances and commissions which are variable in nature. Leasing costs will fluctuate depending on the square footage of leases rolling over, in-place rates at expiry, tenant retention and local market conditions in a given year. Management calculates the leasing cost reserve to reflect the amortization of leasing costs over the related lease term.

FFO and AFFO per Unit

FFO per unit and AFFO per unit are non-GAAP ratios. Refer to the Notice with Respect to Non-GAAP & Supplementary Measures Disclosure section of this MD&A.

Artis calculates FFO and AFFO per unit by dividing FFO and AFFO, respectively, by the weighted-average diluted units outstanding for the period.

Management considers FFO per unit and AFFO per unit to be a valuable recurring earnings measures for evaluating the REIT's operating performance.

The following reconciles the weighted-average number of basic common units to diluted common units:

FFO and AFFO per unit results have been impacted by the decrease in the weighted-average number of units outstanding, primarily due to units repurchased under the NCIB.

FFO and AFFO Payout Ratios

FFO payout ratio and AFFO payout ratios are non-GAAP ratios. Refer to the Notice with Respect to Non-GAAP & Supplementary Measures Disclosure section of this MD&A.

Artis calculates FFO and AFFO payout ratios by dividing the distributions per common unit by diluted FFO per unit and diluted AFFO per unit, respectively, over the same period.

Management uses the FFO and AFFO payout ratios to measure the REIT's ability to pay distributions.

(1) During Q3-22, interest was capitalized to investment properties under development at a weighted-average effective interest rate of 4.22% (YTD - 3.56%). (2) On September 30, 2022, the REIT increased its ownership interest in Park 8Ninety II to 100%.

Capital Expenditures by Type

Building improvements are capital expenditures that increase the long-term value or revenue generating potential of the property. These expenditures include costs to modernize or upgrade existing properties. Property maintenance costs are capital expenditures to repair or replace components of existing properties such as roofs, HVAC units and parking lots.

Leasing Costs by Type

Tenant inducements consist of costs incurred to improve the space that primarily benefit the tenant, as well as allowances paid to tenants. Leasing commissions are fees primarily paid to brokers.

In Q3-22, leasing costs included \$1,151 for an office tenant in Madison, Wisconsin, and \$1,047 for an industrial tenant in the Twin Cities Area, Minnesota.

Acquisition

During Q3-22, the REIT acquired the remaining 5% interest in Park 8Ninety II, an industrial property located in the Greater Houston Area, Texas, for total consideration of US\$2,508. The REIT now owns \$100% of the property.

Disposition

During Q3-22, Artis sold one office property in U.S. for a sale price of \$24,163. The sale proceeds, net of costs of \$882 and related debt of \$12,227, were \$11,054.

Investment properties held for sale

At September 30, 2022, the REIT had one parcel of development land located in Canada and 27 industrial properties, three office properties, two industrial properties under development and one parcel of development land located in the U.S. with an aggregate fair value of \$657,627, classified as held for sale. These properties were actively marketed for sale or under conditional sale agreements at September 30, 2022.

Foreign currency translation gain on investment properties

In Q3-22, the foreign currency translation gain on investment properties was \$141,543 due to the change in the period end US dollar to Canadian dollar exchange rate from 1.2886 at June 30, 2022 to 1.3707 at September 30, 2022.

Fair value (loss) gain on investment properties

During Q3-22, the REIT recorded a loss on the fair value of investment properties of \$74,072 (YTD - loss of \$21,898), compared to a loss of \$3,957 (YTD - gain of \$188,264) in Q3-21. The fair value loss in Q3-22 was primarily due to an increase in capitalization rates in certain industrial and office markets across both Canada and the U.S.

Artis determines the fair value of investment properties based upon either the discounted cash flow method or the overall capitalization method. Capitalization rates are estimated using market surveys, available appraisals and market comparables. Under the overall capitalization method, year one income is stabilized and capitalized at a rate deemed appropriate for each investment property. Individual properties were valued using capitalization rates in the range of 3.50% to 8.75%.

Additional information on the average capitalization rates and ranges used for the portfolio properties, assuming all properties were valued using an overall capitalization method, are set out in the following table.

Equity Securities

At September 30, 2022, the REIT had investments in equity securities of \$269,908, compared to \$77,186 at December 31, 2021. The change during the period is due to equity securities purchased and fair value adjustments due to fluctuations in market prices during the period, partially offset by equity securities sold during the period.

Preferred Investments

At September 30, 2022, the REIT had preferred investments of \$109,228, compared to \$nil at December 31, 2021. The change is due to the junior preferred units acquired as part of the Cominar Transaction in the amount of \$100,000 and additional junior preferred units received in-kind for interest income in the amount of \$9,228. This preferred investment carries a rate of return of 18.0% per annum.

Notes Receivable

On December 17, 2021, the REIT disposed of a portfolio of two office properties and received as partial consideration a note receivable in the amount of \$6,000. The REIT receives monthly interest-only payments at a rate of 4.0% per annum. The note receivable is secured by the office properties and matures in January 2024.

On December 22, 2021, the REIT disposed of an office property and received as partial consideration a note receivable in the amount of \$10,000. The REIT receives monthly interest-only payments at an effective rate of 3.086% per annum. The note receivable is secured by the office property and matures in January 2028.

On January 31, 2020, the REIT disposed of an office property and received as partial consideration a note receivable in the amount of \$10,000. The REIT receives monthly interest-only payments at a rate of 5.00% per annum. The note receivable is secured by the office property and matures in January 2024.

On November 9, 2020, the REIT disposed of a parcel of development land and received as partial consideration a note receivable in the amount of US\$2,450. The note bears interest at a rate of 4.00% per annum and interest and principal are due on maturity in November 2024. The note receivable is secured by a portion of the development land.

The balance outstanding on all notes receivable at September 30, 2022 was \$37,859, compared to \$36,282 at December 31, 2021.

Accounts Receivable

At September 30, 2022, Artis had accounts receivable outstanding as follows:

| | Sept | ember 30, | Dec | ember 31, |
|---------------------------------|------|-----------|-----|-----------|
| | | 2022 | | 2021 |
| Rents receivable | \$ | 6,294 | \$ | 5,578 |

Rent Deferrals

Due to government-mandated capacity restrictions and temporary closures of certain non-essential businesses throughout the course of the COVID-19 pandemic, a number of tenants had to limit operations. To support tenants through this difficult time, qualifying tenants who were in need of assistance were given the option to defer a portion of their rent, with an agreement to repay the amount deferred at a specified later date. As at September 30, 2022, the outstanding balance of rent deferrals granted to tenants was \$280, compared to \$955 at December 31, 2021.

Allowance for Doubtful Accounts

The majority of rent deferrals and rents receivable are anticipated to be collected, however, there are certain tenants that may not be able to pay their outstanding rent. As at September 30, 2022, an allowance for doubtful accounts in the amount of \$1,714 was recorded, compared to \$1,717 at December 31, 2021.

Cash

At September 30, 2022, the REIT had \$136,795 of cash on hand, compared to \$221,474 at December 31, 2021. The balance is anticipated to be invested in investment properties, used for working capital purposes, debt repayment or other activities in accordance with the Business Transformation Plan. All of the REIT's cash is held in current accounts.

LIABILITIES

Mortgages and Loans Payable

Artis finances acquisitions and development projects in part through the arrangement or assumption of mortgage financing and consequently, certain of the REIT's investment properties are pledged as security under mortgages and other loans. The weighted-average term to maturity on all mortgages and loans payable at September 30, 2022 was 1.7 years, compared to 2.3 years at December 31, 2021.

At September 30, 2022, Artis had mortgages and loans payable outstanding, as follows:

| | | | | Canada | | | | U.S. | | | Tot | al Portfolio |

At September 30, 2022, unhedged variable rate mortgage debt as a percentage of total debt, including credit facilities and debentures was 14.2%, compared to 14.5% at December 31, 2021. Management believes that holding a percentage of variable rate debt is prudent in managing a portfolio of debt and provides the benefit of lower interest rates, while keeping the overall risk at a moderate level. All of the REIT's variable rate mortgage debt is term debt and cannot be called on demand. The REIT has the ability to refinance, or use interest rate swaps, at any given point without incurring penalties.

| | | | | \$ | 448,961 | \$ | 450,000 | \$ | 249,346 | \$ | 250,000 | |

At September 30, 2022, the carrying value of the senior unsecured debentures increased \$199,615 compared to December 31, 2021. The change is primarily due to the issuance of the Series E Senior unsecured debentures on April 29, 2022.

Credit Facilities

Revolving Credit Facilities

The REIT has unsecured revolving credit facilities in the aggregate amount of \$700,000. The first tranche of the revolving credit facilities in the amount of \$400,000 matures on December 14, 2022. The second tranche of the revolving credit facilities in the amount of \$300,000 matures on April 29, 2023. The REIT can draw on the revolving credit facilities in Canadian or US dollars. Amounts drawn on the revolving credit facilities in Canadian dollars bear interest at the bankers' acceptance rate plus 1.70% or at prime plus 0.70%. Amounts drawn on the revolving credit facilities in US dollars bear interest at LIBOR plus 1.70% or at the U.S. base rate plus 0.70%. At September 30, 2022, there was \$573,470 drawn on these facilities (December 31, 2021, \$131,851).

Non-Revolving Credit Facilities

The REIT has unsecured non-revolving credit facilities, as outlined in the table below.

| | Interest Rate | Sept | ember 30, 2022 | Dec | ember 31, 2021 |
|--|-------------------------|------|-------------------|-----|-------------------|
| Non-revolving facility maturing December 1, 2022 | Variable ⁽¹⁾ | | 150,000 | | 150,000 |

| | | \$ | 400.000 | \$ | 500,000 |

(1) The applicable interest rate is banker's acceptance rate plus 1.60% or prime rate plus 0.60%. Prior to the amendment, the non-revolving credit facility that matured on July 6, 2022 had an applicable interest rate of 3.57% under an interest rate swap.

(2) The applicable interest rate is banker's acceptance rate plus 1.60% or prime rate plus 0.60%. Prior to the amendment, the applicable interest rate on this non-revolving credit facility was 2.22%. (3) The applicable interest rate is banker's acceptance rate plus 1.70% or prime rate plus 0.70%. Prior to the amendment, the non-revolving credit facility that matured on July 18, 2022 had an

applicable interest rate of 3.50% under an interest rate swap.

At September 30, 2022, there was \$400,000 drawn on the non-revolving credit facilities (December 31, 2021, \$500,000). The change is due to the \$100,000 repayment of the non-revolving facility that matured on February 4, 2022. The remaining balance of \$100,000 was renewed for a one-year term, maturing on February 6, 2023.

Accounts Payable & Other Liabilities

Included in accounts payable and other liabilities was an accrual for the redemption of the Series A preferred units of \$81,208 and accrued distributions payable to unitholders of \$8,180, which were paid subsequent to the end of the period.

UNITHOLDERS' EQUITY

Unitholders' equity increased overall by \$247 between December 31, 2021 and September 30, 2022. The overall increase was primarily due to other comprehensive income of \$130,189, net income of \$123,007, contributed surplus related to common and preferred units purchased through the NCIB of \$20,536 and the issuance of common units for \$151. The overall increase was partially offset by \$117,675 of common units and \$3,890 of preferred units purchased through the NCIB, distributions made to unitholders of \$70,863, and the redemption of preferred units in the amount of \$81,208.

OTHER FINANCIAL MEASURES

The measures and ratios calculated below are non-GAAP. Refer to the Notice with Respect to Non-GAAP & Supplementary Measures Disclosure section of this MD&A.

NAV per Unit

NAV per unit is a non-GAAP measure. Artis calculates NAV per unit as its unitholders' equity, adjusted for the outstanding face value of its preferred units, divided by its total number of dilutive units outstanding.

Management considers this metric to be a valuable measure of the REIT's residual equity available to its common unitholders.

| 000's, except unit and per unit amounts | September 30, 2022 | December 31, 2021 | Change |
|---|-----------------------|----------------------|--------------|
| Unitholders' equity | \$ 2,455,600 | \$ 2,455,353 | \$ 247 |
| Less face value of preferred equity | (213,769) | (299,017) | 85,248 |
| NAV attributable to common unitholders | \$ 2,241,831 | \$ 2,156,336 | \$ 85,495 |
| Total number of dilutive units outstanding: | | | |
| Common units | 115,787,822 | 123,544,536 | (7,756,714) |
| Restricted units | 450,989 | 462,891 | (11,902) |
| Deferred units | 181,343 | 133,552 | 47,791 |
| | 116,420,154 | 124,140,979 | (7,720,825) |
| NAV per unit | \$ 19.26 | \$ 17.37 | \$ 1.89 |

Unitholders' equity increased primarily due to net income and the foreign exchange gain recorded in other comprehensive income, partially offset by units purchased under the NCIB, the redemption of the Series A preferred units and distributions made to unitholders. The total number of dilutive units outstanding has decreased primarily due to units purchased under the NCIB.

Secured Mortgages and Loans to GBV

Secured mortgages and loans to GBV is a non-GAAP measure. Artis calculates GBV based on the total consolidated assets of the REIT, adding back the amount of accumulated depreciation of property and equipment. Artis calculates secured mortgages and loans to GBV by dividing secured mortgages and loans by GBV.

Management considers secured mortgages and loans to GBV to a be valuable measure of the REIT's leverage.

| Secured mortgages and loans to GBV | 20.5 | % | 23.7 % |

Total Debt to GBV

Total debt to GBV is a non-GAAP measure. Artis calculates GBV based on the total consolidated assets of the REIT, adding back the amount of accumulated depreciation of property and equipment. Artis calculates total debt to GBV by dividing total debt, which consists of mortgages and loans, the carrying value of senior unsecured debentures, credit facilities and preferred shares liability, by GBV.

Management considers total debt to GBV to be a valuable measure of the REIT's leverage. Under the terms of the REIT's Declaration of Trust, total indebtedness of the REIT is limited to 70% of GBV.

Unencumbered Assets to Unsecured Debt

Unencumbered assets to unsecured debt is a supplementary financial measure. Unencumbered assets represent the fair value of investment properties that have not been pledged as security under mortgage agreements. Artis calculates unencumbered assets to unsecured debt by dividing the total unencumbered assets, inclusive of investment properties held under joint venture arrangements, by total unsecured debt, which consists of senior unsecured debentures and unsecured credit facilities.

Management considers this ratio to be useful as the REIT is required to maintain a minimum a ratio of 1.4 under the terms of its revolving credit facilities. The availability to draw on the revolving credit facilities is limited by the total unencumbered assets.

| | Sep | September 30, 2022 | | | |

Adjusted EBITDA Interest Coverage Ratio

Adjusted EBITDA interest coverage ratio is a non-GAAP measure.

Prior to December 31, 2021, the REIT calculated Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization ("Adjusted EBITDA") as net income, adjusted for interest expense, transaction costs, income taxes, all non-cash revenue and expense items and non-recurring items, such as strategic initiative expenses.

Effective December 31, 2021, the REIT calculates Adjusted EBITDA as defined above and also deducts net income (loss) from equity accounted investments and adds distributions from equity accounted investments.

Adjusted EBITDA interest coverage ratio is calculated by dividing Adjusted EBITDA by interest expense from operations (excluding amortization of financing costs and above- and below-market mortgage adjustments) and excludes the REIT's share of interest expense in equity accounted investments.

The REIT changed the composition of Adjusted EBITDA and Adjusted EBITDA interest coverage ratio to better reflect the REIT's cash flows from operations relative to debt service requirements.

Management considers this ratio to be a valuable measure of Artis' ability to service the interest requirements on its outstanding debt.

Total Debt to Adjusted EBITDA

Total debt to Adjusted EBITDA is a non-GAAP measure. Artis calculates total debt to Adjusted EBITDA based on annualizing the current quarter's Adjusted EBITDA as defined above and comparing that balance to Artis' total outstanding debt.

Management considers this ratio to be a valuable measure of Artis' ability to meet financial obligations.

(1) Corridor Park is a parcel of development land.

Park 8Ninety is a multi-phase industrial development project situated on a parcel of land in the Southwest industrial submarket in the Greater Houston Area, Texas. During Q3-22, Artis acquired the remaining 5% of Park 8Ninety II and now owns 100% of the property. Artis also has 100% ownership in Park 8Ninety I, Park 8Ninety III and Park 8Ninety IV.

Park Lucero East is a state-of-the-art industrial development project located in the Greater Phoenix Area, Arizona, along the South Loop 202 Freeway with 202 Freeway and Germann Road frontage and is adjacent to Park Lucero, a multi-phase industrial complex that is 100% owned by Artis. This project is expected to comprise three Class A industrial buildings totalling approximately 561,000 square feet of leasable area.

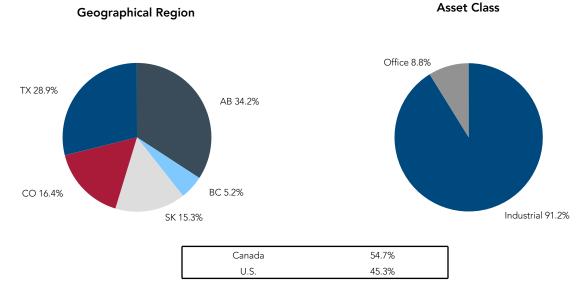

At September 30, 2022, The Point at Inverness, an office property located in the Greater Denver Area, Colorado was classified as held for sale.

| Iris Acquisition II LP | Associate | Investment in Cominar Real Estate Investment Trust | 32.64 % | <u> </u> |

On March 1, 2022, the REIT contributed \$112,000 to acquire common equity units in Iris Acquisition II LP ("Iris"), an entity formed to acquire the outstanding units of Cominar. The REIT's investment in 32.64% of the outstanding common equity units of Iris is determined to be an investment in an associate on the basis of the REIT's significant influence over this investment through representation on the Board of Cominar and the Board of the ultimate general partner of Iris.

In connection with the investment in Iris, the REIT, Sandpiper and an affiliate of Sandpiper entered into two joint ventures, ICE LP and ICE II LP. ICE LP holds 33.33% interest in the ultimate general partner of Iris and certain equity interest in Iris with profit participation rights. ICE II LP holds 33.33% interest in the asset manager of Cominar.

Under the asset management agreement, the asset manager earns a monthly fee of 1/12th of 1.75% of the net asset value of Iris. The asset management agreement has an initial term of six years with an automatic renewal of one year thereafter.

In addition, the REIT acquired junior preferred units of Iris for \$100,000, which carry a rate of return of 18.0% per annum. Refer to Preferred Investments section of this MD&A for further details.

The change in other investments held in equity accounted investments is a result of the following:

The net income from Iris Acquisition II LP in Q1-22 includes a bargain purchase gain in the amount of \$111,652.

LIQUIDITY AND CAPITAL RESOURCES

Cash flow from operations represents the primary source of funds for distributions to unitholders and principal repayments on mortgages and loans.

DISTRIBUTIONS

The Trustees determine the level of cash distributions based on the level of cash flow from operations before working capital changes, less actual and planned capital expenditures. During the period, distributions are based on estimates of full year cash flow and capital spending; thus, distributions may be adjusted as these estimates change. It is expected that normal seasonal fluctuations in working capital will be funded from cash resources.

(1) In 2021, the Board of Trustees declared a special distribution of \$2.39 per common unit, which was comprised of \$0.32 per common unit payable in cash and \$2.07 per common unit payable in common units. This amount represents only the cash portion.

Artis' primary objective is to provide tax-efficient monthly cash distributions.

The shortfall of net income over distributions declared for the three months ended September 30, 2022 was primarily due to the non-cash impact of the fair value losses on investment properties and financial instruments. The shortfall of net income over distributions declared for the year ended December 31, 2020 was primarily due to the non-cash impact of the fair value loss on investment properties.

CAPITAL RESOURCES

At September 30, 2022, Artis had \$136,795 of cash on hand. Management anticipates that the cash on hand may be invested in investment properties, used for working capital purposes, debt repayment or other activities in accordance with the Business Transformation Plan.

The REIT has two unsecured revolving term credit facilities in the aggregate amount of \$700,000, which can be utilized for general corporate and working capital purposes, short term financing of investment property acquisitions and the issuance of letters of credit. At September 30, 2022, the REIT had \$126,530 available on its revolving term credit facilities. Under the terms of the revolving credit facilities, the REIT must maintain a minimum unencumbered property assets to consolidated unsecured indebtedness ratio of 1.4. As at September 30, 2022, this covenant limited the borrowing capacity of the revolving credit facilities to \$684,161 (December 31, 2021, limited to \$635,313).

At September 30, 2022, the REIT had 91 unencumbered properties, one unencumbered development project and three unencumbered parcels of development land, representing a fair value of \$2,103,103.

Artis is not in default or arrears on any of its obligations, including distributions to unitholders, interest or principal payments on debt at September 30, 2022.

The REIT's mortgage providers have various financial covenants. The REIT monitors these covenants, which are primarily debt service coverage ratios. Mortgages and loans payable with maturities within 12 months or are payable on demand as a result of a financial covenant breach are classified as current liabilities.

The REIT's management expects to meet all of its short-term obligations and capital commitments with respect to investment properties and new developments in process through funds generated from operations, from the proceeds of mortgage financing, drawing on unsecured credit facilities, from the issuance of new debentures or units and from cash on hand.

RISKS AND UNCERTAINTIES

A summary of all risks applicable to the REIT are set forth in Artis' 2021 Annual Information Form. The REIT discusses specific risk factors below.

BUSINESS TRANSFORMATION PLAN

Failure to Execute the Business Transformation Plan

Pursuant to the Business Transformation Plan, Artis intends to make investments that achieve superior investment performance commensurate with reasonable risk. This goal relies on the successful execution of its investment strategies, which may be uncertain as it requires suitable opportunities, careful timing and business judgment, as well as sufficient resources to make investments and restructure them, if required, notwithstanding difficulties experienced in a particular industry. In addition, there is no assurance that Artis will be able to identify suitable or sufficient opportunities that meet its investment criteria and be able to make investments at attractive prices to supplement its growth in a timely manner, or at all. Further, Artis may be exposed to unexpected risks and costs associated with its investments, including that the costs necessary to bring an investment up to Artis' standards established for its intended market position may be higher than expected.

Investment Portfolio

In connection with the Business Transformation Plan, investment returns will become an increasingly important part of Artis' overall profitability as Artis' operating results will depend in part on the performance of its investment portfolio. It is expected that Artis' investment portfolio will include bond and other debt instruments, common stock, preferred stock and derivative instruments. Accordingly, fluctuations in the fixed income or equity markets could have an adverse effect on Artis' financial condition, profitability or cash flows. The return on the portfolio and the risks associated with the investments are affected by the asset mix of the portfolio companies, which can change materially depending on market conditions.

Acquisitions, Divestitures and Strategic Initiatives

Pursuant to the Business Transformation Plan, Artis may periodically explore opportunities to make strategic investments in all or part of certain businesses or companies. Although Artis will undertake due diligence prior to the completion of an acquisition or investment, there can be no assurance that Artis will have adequate time or access to complete appropriate investigations or that Artis will properly ascertain or assess all of the significant risks of such investment. Furthermore, some of the risks may be outside of Artis' control and leave Artis with no ability to mitigate or control the chances that those risks will adversely impact the target company. In addition, there is no assurance that the anticipated financial or strategic objectives following an integration effort or the implementation of a strategic initiative will be achieved, which could adversely affect Artis' financial condition, profitability or cash flows. In particular, acquisitions may involve a number of special risks, including failure to retain key personnel, unanticipated events or circumstances and legal liabilities, some or all of which could have a material adverse effect on Artis' business, results of operations and financial position.

Control or Significant Influence Risk & Minority Investments

Although Artis may endeavour to make investments that allow it to acquire control or exercise significant influence over management and the strategic direction of its portfolio entities, there can be no assurance that all investments will provide Artis with such a degree of influence or control. In addition, the exercise of control over a portfolio company imposes additional risks of liability for failure to supervise management. The exercise of control over an investment could expose the assets of Artis to claims by such businesses, its shareholders and its creditors. While Artis intends to manage its investments in a manner that will minimize the exposure to these risks, the possibility of successful claims cannot be precluded. On occasion, Artis expects that it may also make minority equity investments in businesses in which Artis does not participate in the management or otherwise control the business or affairs of such businesses. While Artis will monitor the performance of each investment and maintain an ongoing dialogue with each business management team, it will be the responsibility of the management of the business to operate the business on a day-to-day basis and Artis may not have the right or ability to control or otherwise influence such business. Accordingly, these companies may undertake activities which Artis does not believe is in their best interests.

Competitive Market for Investment Opportunities

In accordance with the Business Transformation Plan and Artis' business objective and investment strategies, Artis will compete with a large number of other investors, such as private equity funds, mezzanine funds, investment banks and other equity and non-equity based public and private investment funds, and other sources of financing, including traditional financial services companies, such as commercial banks. Competitors may have a lower cost of funds and may have access to funding sources that are not available to Artis. In addition, certain competitors of Artis may have higher risk tolerances or different risk assessments, which could allow them to consider a wider variety of investments and establish more relationships and build their respective market shares. There can be no assurance that the competitive pressures faced by Artis will not have a material adverse effect on its investment activities pursuant to the Business Transformation Plan.

Reputation

Artis could be negatively impacted if there is misconduct or alleged misconduct by its personnel, personnel of Sandpiper or those of the portfolio companies in which Artis invests, including historical misconduct prior to its investment. Risks associated with misconduct at portfolio companies is heightened in cases where Artis does not have legal control or exercise significant influence over an investment, or is not otherwise involved in actively managing a portfolio company. In such situations, given Artis' ownership position and affiliation with the portfolio company, it may still be negatively impacted from a reputational perspective through this association.

Reliance on Services of Sandpiper

Some decisions with respect to the assets and investment strategy of Artis are expected to be made with reliance on the services and support of Sandpiper. Personnel and support staff of Sandpiper who provide services to Artis are not required to treat their responsibilities to Artis as their primary responsibilities or to act exclusively for Artis (other than Samir Manji, who has certain fiduciary duties and contractual obligations with respect to Artis in his capacity as President & CEO and a trustee). The Services Agreement does not require Sandpiper to maintain the employment of any of its personnel or to cause any particular person to provide services to Artis. There can be no assurance that any of the personnel and support staff of Sandpiper will remain in their current positions.

COVID-19 PANDEMIC

The COVID-19 pandemic resulted in governments enacting emergency measures, including travel restrictions, physical distancing and the temporary closure of non-essential businesses. These changes caused a disruption to markets where the REIT operates in both Canada and the U.S. and an overall global economic slowdown.

As the situation is continually evolving, the duration and impact of the COVID-19 pandemic is unknown. Any estimate of the length and potential severity of the risks associated with the COVID-19 pandemic is subject to significant uncertainty. The extent to which the COVID-19 pandemic may adversely affect the REIT's operations, financial results and capital resources in future periods is also subject to significant uncertainty. The REIT is faced with numerous risks related to the COVID-19 pandemic which include, but are not limited to the following uncertainties:

- estimates of the amount and timing of future cash flows generated from investment properties in the determination of fair value;
- the REIT's ability to satisfy ongoing debt covenants due to changes in the REIT's liquidity and financial condition;
- the collection of rents receivable due to economic challenges faced by tenants;
- the impact of additional government regulation in response to the COVID-19 pandemic;
- delays, costs and availability of resources required to complete capital projects and ongoing developments in process and potential restrictions regarding the commencement of new development projects;
- market volatility and the associated challenges related to the ability to access capital;
- the REIT's ability to refinance maturing mortgages; and
- fair values of investment properties for disposed properties exceeding the mortgages payable for which the REIT has provided guarantees.

Any of these risks and uncertainties could have a material adverse effect on the REIT's operations, financial results and capital resources. Management seeks to mitigate risks associated with the COVID-19 pandemic in a variety of ways:

- management is working diligently with tenants to ensure the ongoing operation of their businesses and has provided rent deferrals to certain qualifying tenants;
- to help mitigate the spread of the virus, management has increased cleaning and sanitization at all properties;
- management is actively monitoring the availability of government relief programs in both Canada and the U.S. that may be applicable to either the REIT or its tenants; and
- management continues to assess recommendations by the public health authorities and continues to closely monitor operations and will take further action, if necessary, that are in the best interest of employees, tenants and stakeholders.

REAL PROPERTY OWNERSHIP

All real property investments are subject to elements of risk. General economic conditions, local real estate markets, supply and demand for leased premises, competition from other available premises and various other factors affect such investments. The REIT's properties are located in five Canadian provinces and six U.S. states, with the largest geographical segments, measured by net operating income, located in the provinces of Alberta and Manitoba and in the states of Minnesota and Arizona. As a result, investment properties are impacted by factors specifically affecting their respective real estate markets. These factors may differ from those affecting the real estate markets in other regions of Canada and the U.S.

DEVELOPMENTS

Artis is subject to numerous risks related to development projects including development costs exceeding original estimates, construction or other unforeseen timing delays and development projects not be leased on a timely basis or at anticipated rates upon completion. These risks could impact the REIT's liquidity, financial position and future earning potential.

At September 30, 2022, investment properties under development account for 4.7% of Artis' total investment properties (December 31, 2021, 4.9%). At September 30, 2022, the REIT had two development projects in progress, 300 Main and Blaine 35 II.

DEBT FINANCING AND INTEREST RATE FLUCTUATIONS

Artis will be subject to the risks associated with debt financing. There can be no assurance that Artis will be able to refinance its existing indebtedness on terms that are as or more favourable to Artis as the terms of existing indebtedness. The inability to replace financing of debt on maturity would have an adverse impact on the financial condition and results of Artis.

Management seeks to mitigate this risk in a variety of ways. First, management considers structuring the timing of the renewal of significant tenant leases on properties in relation to the time at which mortgage indebtedness on such property becomes due for refinancing. Second, management seeks to secure financing from a variety of lenders on a property by property basis. Third, mortgage terms are, where practical, structured such that the exposure in any one year to financing risks is balanced.

Artis is also subject to interest rate risk associated with the REIT's credit facilities, mortgages and debentures payable due to the expected requirement to refinance such debts in the year of maturity. The REIT minimizes the risk by restricting debt to 70% of gross book value and by carefully monitoring the amount of variable rate debt. At September 30, 2022, 31.2% of the REIT's mortgages and loans payable bear interest at fixed rates, and a further 35.6% of the REIT's mortgages and loans payable bear interest rate swaps in place. At September 30, 2022, the REIT is a party to \$1,705,513 of variable rate debt, including credit facilities (December 31, 2021, \$1,324,662). At September 30, 2022, the REIT had entered into interest rate swaps to hedge the interest rate risk associated with \$379,178 of variable rate debt, including credit facilities, (December 31, 2021, \$907,516). The REIT has the ability to place interest rate swaps on top of variable rate debt at any time in order to effectively fix the interest rate.

At September 30, 2022, the REIT's ratio of secured mortgages and loans to GBV was 20.5%, compared to 23.7% at December 31, 2021. At September 30, 2022, the REIT's ratio of total debt to GBV was 47.9%, compared to 42.9% at December 31, 2021. Approximately 20.0% of Artis' maturing mortgage debt comes up for renewal during the remainder of 2022, and 45.7% in 2023. Management is in discussion with various lenders with respect to the renewal or refinancing of the remainder of the 2022 mortgage maturities.

FOREIGN CURRENCY

The REIT owns properties located in the U.S., and therefore, the REIT is subject to foreign currency fluctuations that may impact its financial position and results. In order to mitigate this risk, the REIT's debt on U.S. properties and a portion of the amounts drawn on credit facilities are held in US dollars to act as a natural hedge.

TENANTS

Credit and Tenant Concentration

Artis is exposed to risks relating to tenants that may be unable to pay their contracted rents. Management mitigates this risk by acquiring and owning properties across several asset classes and geographical regions. As well, management seeks to acquire properties with strong tenant covenants in place. Artis' portfolio includes 1,182 tenant leases with a weighted-average term to maturity of 5.3 years. Approximately 49.8% of the REIT's gross revenue is derived from national or government tenants. As indicated below, the largest tenant by gross revenue is Bell Canada, which is one of Canada's leading national communication companies providing voice services, internet and data services, and television. The second largest tenant by gross revenue is AT&T, which is a leading provider of telecommunications, media and technology services globally.

Lease Rollover

The value of investment properties and the stability of cash flows derived from those properties is dependent upon the level of occupancy and lease rates in those properties. Upon expiry of any lease, there is no assurance that a lease will be renewed on favourable terms, or at all; nor is there any assurance that a tenant can be replaced. A contraction in the Canadian or U.S. economy would negatively impact demand for space in industrial, office and retail properties, consequently increasing the risk that leases expiring in the near term will not be renewed.

Details of the portfolio's expiry schedule is as follows:

Artis' real estate is diversified across five Canadian provinces and six U.S. states, and across the industrial, office and retail asset classes. By city and asset class, the five largest segments of the REIT's portfolio (by Q3-22 net operating income) are Twin Cities Area industrial, Twin Cities Area office, Madison office, Greater Phoenix Area office and Winnipeg office.

SIFT RULES AND OTHER TAX-RELATED FACTORS

The Income Tax Act (Canada) contains legislation affecting the tax treatment of a specified investment flow-through ("SIFT") trust or partnership ("the SIFT Rules"), which are applicable to publicly traded income trusts unless the trust satisfies the REIT Exception. The REIT Exception to the SIFT Rules is comprised of a number of technical tests and the determination as to whether the REIT qualifies for the REIT Exception in any particular taxation year can only be made with certainty at the end of the taxation year. Management believes that the REIT has met the requirements of the REIT Exception in each taxation year since 2009 and that it has met the REIT Exception throughout the period ended September 30, 2022 and the year ended December 31, 2021. There can be no assurances, however, that the REIT will continue to be able to satisfy the REIT Exception in the future such that the REIT will not be subject to the tax imposed by the SIFT Rules.

The Tax Act also contains restrictions relating to the activities and the investments permitted by a mutual fund trust. Closedend trusts must also comply with a number of technical tests relating to its investments and income. No assurance can be given that the REIT will be able to continue to comply with these restrictions at all times.

The REIT operates in the United States through U.S. REITs, which are capitalized by the REIT by way of equity, debt in the form of notes owed to the REIT and preferred shares. If the Internal Revenue Service or a court were to determine that the notes and related interest should be treated differently for tax purposes, this may adversely affect the REIT's ability to flow income from the U.S. to Canada.

CYBER SECURITY

Cyber security has become an increasingly problematic issue for issuers and businesses in Canada and around the world, including for Artis and the real estate industry. Cyber attacks against large organizations are increasing in sophistication and are often focused on financial fraud, compromising sensitive data for inappropriate use or disrupting business operations. A cyber incident is considered to be any adverse event that threatens the confidentiality, integrity or availability of the organization's information resources. More specifically, a cyber incident is an intentional attack or an unintentional event that can include gaining unauthorized access to information systems to disrupt operations, corrupt data or steal confidential information.

As Artis' reliance on technology has increased, so have the risks posed to its system. Artis' primary risks that could directly result from the occurrence of a cyber incident include operational interruption, damage to its reputation, damage to its business relationships with its tenants, disclosure of confidential information regarding its tenants, employees and third parties with who Artis interacts, and may result in negative consequences, including remediation costs, loss of revenue, additional regulatory scrutiny and litigation. These developments may subject Artis' operations to increased risks, as well as increased costs, and, depending on their magnitude, could have a material adverse effect on Artis' financial position and results of operations.

The Board and management are responsible for overseeing Artis' cyber security risks. To remain resilient to these risks, Artis has implemented processes, procedures and controls to help mitigate these risks, including installing firewalls and antivirus programs on its networks, servers and computers, and staff training. However, these measures, as well as its increased awareness of a risk of a cyber incident, do not provide assurance that its efforts will be effective or that attempted security breaches or disruptions will not be successful or damaging.

OTHER INFORMATION

RELATED PARTY TRANSACTIONS

In 2022, the REIT paid employment benefits to employees and issued unit-based awards to trustees, officers and employees.

Sandpiper is a related party by virtue of being a company under joint control of the President and Chief Executive Officer of the REIT.

Effective May 1, 2021, the REIT entered into a Space Sharing Licence Agreement with Sandpiper for use of certain office premises for an annual fee of \$130 inclusive of taxes. The agreement has a two-year term, with an automatic one-year extension unless terminated by either party upon written notice no later than 120 days before the end of the term or extension term.

Effective May 17, 2021, the REIT entered into a Services Agreement with Sandpiper to provide certain services to support the REIT's strategy, under the Business Transformation Plan, to acquire ownership positions in publicly-listed real estate entities. The annual fee payable to Sandpiper is 0.50% for years one to three, 0.40% for year four, and 0.30% for year five and thereafter, based on the net value of the investments made by the REIT pursuant to this agreement. The agreement continues until termination by either party upon 60-day written notice, or upon other specific circumstances.

Fees paid and accrued to Sandpiper were as follows:

| | Three months ended September 30, | | | | Nine months ended September 30, | | | |
|-----------------------------|-------------------------------------|----|------|----|------------------------------------|----|------|--|
| | 2022 | | 2021 | | 2022 | | 2021 | |

| Service fees | 375 | | 34 | | 785 | | 35 | |
| | \$ 406 | \$ | 65 | \$ | 878 | \$ | 87 | |

Amounts payable to Sandpiper were \$375 as at September 30, 2022 (December 31, 2021, \$76).

In connection with the investment in Iris on March 1, 2022, the REIT entered into two joint ventures, ICE LP and ICE II LP, with Sandpiper and an affiliate of Sandpiper. As at September 30, 2022, the REIT had a balance payable to ICE II LP of \$489.

SUBSEQUENT EVENTS

Subsequent to September 30, 2022, the following transactions took place:

- The REIT entered into an unconditional sale agreement to sell a portfolio comprised of six industrial properties located in the Twin Cities Area, Minnesota for US\$74,825.
- The REIT drew a net balance of \$41,000 and drew a net balance of US\$21,000 on its revolving term credit facilities.
- The REIT repaid mortgages in the aggregate amount of \$14,317 and US\$11,290.
- The REIT purchased through the NCIB 7,900 Series E preferred units at a weighted-average price of \$23.20 and 10,900 Series I preferred units at a weighted-average price of \$24.63.

- The REIT purchased equity securities for an aggregate cost of \$28,299.
- The REIT declared a monthly cash distribution of \$0.05 per common unit for the month of October 2022.
- The REIT declared a quarterly cash distribution of \$0.3750 per Series I preferred unit for the three months ended October 31, 2022.

The quarterly financial results have been impacted by acquisition, disposition and (re)development activity, the impact of foreign exchange, lease termination income, transaction costs, proxy matter expenses, strategic initiative expenses, and the fair value gains and losses on investment properties and financial instruments. The quarterly financial results have also been impacted by the COVID-19 pandemic.

Per unit results are also impacted by units purchased under the NCIB.

CRITICAL ACCOUNTING ESTIMATES

The policies that the REIT's management believes are the most subject to estimation and judgment are set out in the REIT's Management Discussion and Analysis for the year ended December 31, 2021.

CHANGES IN ACCOUNTING STANDARDS

New or Revised Accounting Standard Adopted During the Period

In May 2020, the IASB issued amendments to IFRS 3 *Business Combinations*. The amendments update IFRS 3 so that it refers to the 2018 Conceptual Framework instead of the 1989 Framework. The amendments also add to IFRS 3 a requirement that, for obligations within the scope of IAS 37, an acquirer applies IAS 37 to determine whether at the acquisition date a present obligation exists as a result of past events. For a levy that would be within the scope of IFRIC 21 Levies, the acquirer applies IFRIC 21 to determine whether the obligating event that gives rise to a liability to pay the levy has occurred by the acquisition date. Finally, the amendments add an explicit statement that an acquirer does not recognize contingent assets acquired in a business combination. These amendments had no impact on the interim condensed consolidated financial statements.

In May 2020, the IASB issued amendments to IAS 37 to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. The amendments apply a "directly related cost approach". The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. These amendments had no impact on the interim condensed consolidated financial statements as no onerous contracts were identified during the period.

As part of its 2018-2020 annual improvements to IFRS standards process, the IASB issued an amendment to IFRS 9. The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. These amendments were adopted when assessing the terms of the new and modified financial liabilities during the period and have no material impact on the interim condensed consolidated financial statements.

CONTROLS AND PROCEDURES

INTERNAL CONTROLS OVER FINANCIAL REPORTING

The REIT's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with IFRS. Management is responsible for establishing and maintaining adequate internal controls over financial reporting.

All control systems have inherent limitations, and evaluation of a control system cannot provide absolute assurance that all control issues have been detected, including risks of misstatement due to error or fraud. As a growing enterprise, management anticipates that the REIT will be continually evolving and enhancing its systems of controls and procedures.

The Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") evaluated, or caused to be evaluated under their supervision, the effectiveness of the REIT's internal controls over financial reporting (as described in NI 52-109). Based on this evaluation, the CEO and CFO have concluded that, as at September 30, 2022, the design of the REIT's internal control over financial reporting was effective in providing reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with IFRS. No changes were made in the REIT's design of internal controls over financial reporting during the nine months ended September 30, 2022, that have materially affected, or are reasonably likely to materially affect, the REIT's internal controls over financial reporting.

DISCLOSURE CONTROLS AND PROCEDURES

The REIT's disclosure controls and procedures are designed to provide reasonable assurance that information required to be disclosed by the REIT is recorded, processed, summarized and reported within the time periods specified under Canadian securities laws, and include controls and procedures that are designed to ensure that information is accumulated and communicated to management, including the CEO and CFO, to allow timely decisions regarding required disclosure.

As of September 30, 2022, under the supervision of the CEO and CFO and with the participation of management, the effectiveness of the REIT's disclosure controls and procedures (as described in NI 52-109) was evaluated. Based on the evaluation, the CEO and CFO have concluded that the REIT's disclosure controls and procedures were effective for the nine months ended September 30, 2022.
