NON-GAAP MEASURES

In addition to reported IFRS measures, non-GAAP measures are commonly used by Canadian real estate investment trusts as an indicator of financial performance. "GAAP" means the generally accepted accounting principles described by the CPA Canada Handbook - Accounting, which are applicable as at the date on which any calculation using GAAP is to be made. Artis applies IFRS, which is the section of GAAP applicable to publicly accountable enterprises. These non-GAAP measures are not defined under IFRS and are not intended to represent operating profits for the period, or from a property, nor should any of these measures be viewed as an alternative to net income, cash flow from operations or other measures of financial performance calculated in accordance with IFRS. Readers should be further cautioned that non-GAAP measures as calculated by Artis may not be comparable to similar measures presented by other issuers. These non-GAAP financial measures are more fully defined and discussed in Artis' MD&A as at and for the three months ended September 30, 2021, available at www.artisreit.com and on www.sedar.com

BACKGROUND

100-DAY REVIEW (NOVEMBER 30, 2020 TO MARCH 10, 2021)

On November 30, 2020, five trustees were replaced with highly qualified individuals who brought a broad range of experience and expertise to the Board of Trustees (the "Board"). The newly reconstituted Board commenced a comprehensive review of the REIT and committed to completing the review and announcing the results within 100 days. The Board engaged Sandpiper Group ("Sandpiper") to lead the review at no cost to Artis.

RESET	 Replaced five trustees with highly qualified individuals who bring a broad range of experience and expertise Executive Changes: Appointed Samir Manji as CEO, Jaclyn Koenig as CFO and Kim Riley as COO Reduced Board fees by 25% Enhanced governance framework and practices Identified other efficiencies and cost reduction opportunities that are expected to generate over \$3.0 million per annum of general and administrative ("G&A") and property-level savings Announced an increase in common unitholder distribution to \$0.60 per unit annually from \$0.5562 per unit annually, effective for the March 2021 monthly distribution, payable on April 15, 2021. This represents a 11.1% increase since November 2020
ASSESS	 Engaged with Management In-depth analysis of Artis' assets and corporate operations Refined Sandpiper's valuation, arriving at a \$16.04 net asset value ("NAV") per unit, exceeding the company disclosed NAV per unit of \$15.03 at December 31, 2020
EXECUTE	 Present Business Transformation Plan to all stakeholders Optimize capital allocation plan Focus on maximizing value for ALL unitholders

THE OPPORTUNITY

Artis has significant opportunities for value enhancement and will focus on growth in NAV per unit and distributions

CONSIDERATIONS

- Artis trades at a significant discount to its \$17.45 IFRS NAV per unit
- It is widely known that diversified REITs are out of favour and real estate generally trades at dramatically lower valuations in the public markets versus private markets
- · Accessing hard assets of quality and scale can be done indirectly through the public markets at discounted valuations

OBJECTIVES

The 100-day review contemplated a range of alternatives and permutations, ultimately concluding with a bold new vision and strategy to: (1) bridge the value gap; and (2) drive long-term outperformance through NAV per unit and distribution growth.

Bridging the value gap while building a best-in-class real estate entity with a clearly defined vision and strategy and long-term growth potential requires ingenuity and pursuit of an unconventional path.
