NOTICE WITH RESPECT TO NON-GAAP & OTHER SUPPLEMENTARY FINANCIAL MEASURES DISCLOSURE

In addition to reported IFRS measures, certain non-GAAP and supplementary financial measures are commonly used by Canadian real estate investment trusts as an indicator of financial performance. “GAAP” means the generally accepted accounting principles described by the CPA Canada Handbook - Accounting, which are applicable as at the date on which any calculation using GAAP is to be made. Artis applies IFRS, which is the section of GAAP applicable to publicly accountable enterprises.

Non-GAAP measures and ratios include Same Property Net Operating Income (“Same Property NOI”), Funds From Operations (“FFO”), Adjusted Funds from Operations (“AFFO”), FFO per Unit, AFFO per Unit, FFO Payout Ratio, AFFO Payout Ratio, Net Asset Value (“NAV”), NAV per Unit, Gross Book Value (“GBV”), Secured Mortgages and Loans to GBV, Total Debt to GBV, Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (“Adjusted EBITDA”), Adjusted EBITDA Interest Coverage Ratio and Total Debt to Adjusted EBITDA.

Supplementary financial measures include unencumbered assets to unsecured debt, percentage of unhedged variable rate mortgage debt, excess of cash flow from operations over distributions declared and excess of net income over distributions declared. Management believes that these measures are helpful to investors because they are widely recognized measures of Artis’s performance and provide a relevant basis for comparison among real estate entities.

These non-GAAP and supplementary financial measures are not defined under IFRS and are not intended to represent financial performance, financial position or cash flows for the period, nor should any of these measures be viewed as an alternative to net income, cash flow from operations or other measures of financial performance calculated in accordance with IFRS. These non-GAAP financial measures are more fully defined and discussed in Artis’s MD&A as at and for the year ended December 31, 2023, available at www.artisreit.com and on SEDAR+ at www.sedarplus.ca.

CONSIDERATIONS

- Artis trades at a significant discount to its \$14.11 NAV per unit at June 30, 2024
- It is widely known that real estate generally trades at dramatically lower valuations in the public markets versus private markets
- Accessing hard assets of quality and scale can be done indirectly through the public markets at discounted valuations

OBJECTIVES

Artis's set of strategic goals is aimed at enhancing overall unitholder value and ensuring sustained performance through growth in NAV per unit. Achieving this goal involves two primary objectives: **(1) bridge the value gap**; and **(2) drive long-term outperformance through NAV per unit growth**.

Bridging the value gap while building a best-in-class real estate entity with a clearly defined vision and strategy and long-term growth potential requires ingenuity and pursuit of an unconventional path.

STRATEGY
